DEFINITIONS

Construction Manager: An entity that administers the construction contract throughout the planning, design and construction phases of the project but does no actual design or construction (pure agency construction manager), or who provides construction advice and construction leadership on a project during the planning and design stages and also provides construction leadership, contract management, direction, supervision, coordination and control of the work during the construction phase (at risk construction manager).

Exterior Finish Systems: Multi-layered exterior wall systems including EIFS, which resemble stucco in appearance, that are used on both commercial buildings and residential homes.

General Contractor: A contractor who subcontracts work to others in excess of 50% of their total receipts, exercises primary control of the job-site, and is named in the construction documents as the general contractor of record.

Girder Bridges: Bridges supported by beams called girders which rest on abutments and/or piers.

Mixed-Use Building: Buildings which include both commercial occupancy and residential/habitational occupancy, and in which 30% or more of the building's square footage is being used for, or is intended to be used for, human residency.

Prime Contractor: Principle contractor on a project; any contractor on a project having a contract directly with the owner.

Residential/Habitational: Any structure where 30% or more of the square foot area is used or is intended to be used for human residency including but not limited to: single or multi-family housing, apartments, condominiums, townhouses, cooperatives or planned unit developments, and also includes their common areas and/or appurtenant structures (including pools, hot tubs, detached garages, guest houses or any similar structures). When there is no individual ownership of units, residential structure does not include military housing, college/university housing or dormitories, long term care facilities, hotels, or motels. Residential structure also does not include hospitals or prisons.

Subsidence: Any movement of land or earth including: landslides; mudflow; earth sinking, rising, and shifting; collapse or movement of fill, earth settling, slipping, falling away, caving in, eroding or tilting; and earthquake.

Total revenue: The gross amount charged by the Applicant for:

- Services rendered, rentals, dues or fees,
- Total construction value for jobs where the Applicant is the lead on a Design-Build job,
- Goods or products sold or distributed.

Total revenue includes:

- Amounts passed through to subcontractors,
- Foreign exchange discounts,
- Freight allowance to customers,
- Sales of consigned goods and warehouse receipts,
- Trade or cash discounts,
- Bad debts and the amount actually collected on items which have been sold on installments, but repossessed.

Total revenue does not include:

- Sales or excise taxes which are collected and submitted to a governmental division,
- Credits for repossessed merchandise and products returned,
- Allowances for damaged and spoiled goods,
- Finance charges for installment payments for goods, products or services sold on installments,
- Freight charges on sales if freight is charged as a separate item on the customer's invoice,
- Royalty income from patent rights or copyrights which are not product sales,
- Rental receipts for products liability coverage only .

Wrap-up OCIP/CCIP: A policy providing coverage for all interests in a major construction project. An OCIP is an Owner Controlled Insurance Program; a CCIP is a Contractor Controlled Insurance Program
