

CANNABIS COVERAGE

The U.S legal cannabis market is flourishing, and as more states legalize medical and/or recreational marijuana use, the need for coverage in the space will increase. Cannabis coverage through Skyward Specialty can help your clients manage the unique risks associated with cannabis-related businesses.

We have a strong appetite for E&O targeted policies, which can be tailored for multiple coverage classes. The E&O markets are underserving their trading partners and clients in the cannabis market, leaving risks unaddressed and problems unresolved. Skyward Specialty is uniquely positioned to provide exceptional coverage and solve those problems. With us, your clients can rest easy knowing they have a team of experts on their side.
